EDUCATION

Hampton University
B.S. in Cyber Security

Hampton, VA
Expected Graduation: **May 2028**

PROJECTS

Portfolio Website [HTML | CSS | JavaScript]

Fall 2025

- Won 1st place at the Hampton University Cyber Security Club Website Competition (Sept. 2025), judged on design and front-end execution.
- Designed and developed a portfolio site with custom animations, transitions, a loading screen, and background audio.

HUCart [Swift | SwiftUI | Xcode]

Spring 2025

- Developed a multi-view iOS shopping prototype that simulates store selection, product browsing, cart management, checkout, and order history.
- Implemented shared application state and data models using SwiftUI with `@State`, `@Binding`, `@EnvironmentObject`, `ObservableObject`, and UUID-based identifiers.

LEADERSHIP AND ACTIVITIES

Hampton University Cyber Security Club

Spring 2024 – Present

- Competed in Cyber Skyline's National Cyber League (Fall 2025 Team and Individual Games), applying cyber fundamentals across both formats.
- Selected for the Hampton x Leidos Capture the Flag invitational (Fall 2024), testing cybersecurity task completion under a fixed time window.

Hampton University AI Club

Fall 2025 – Present

- Member of the emerging campus AI club, focused on ethical applications of AI and integrating AI into student-led projects

National Society of Black Engineers (NSBE Chapter II)

Fall 2023 – Present

- Attended the NSBE Region II Ozone Summit at the University of Virginia for workshops on leadership, career development, and STEM networking.
